Leah is about a year old, give or take a little. She was picked up by a caring family along with another young lab and brought home to foster with the family's other two dogs. She got along well with everyone and loved having a family with her very own kids (9 & 13 year old girls).

One evening, a fire broke out in the house, due to a faulty ground wire on the hot water heater. Dad was away and Mom and the girls were sound asleep. The fire got worse & worse and Leah frantically tried to get everyone awake, scratching & scratching at the door. Finally the Mom got up. When she saw the smoke and flames, she grabbed her girls and ran out, just in the nick of time. The family lost everything they owned, except their lives and two of the dogs, including Leah.

As Leah was a foster dog, they're still trying to find a home for her and now have nowhere to keep her. So Leah became a GRReat Dog, even though she really already was one! She has been spayed, brought up-to-date on all of her shots, heartworm tested & put on prevention and microchipped. Through it all, she maintained her calm, sweet personality and everyone that has met this little heroine, has loved her. Leah seems to ignore cats and doesn't mind living around other dogs - but she really loves having her very own family!
