## Bobcat attacks golfers on Tucson's north side

April 4, 2006, 04:47 PM EDT

**A bobcat attacked two golfers at Skyline Country Club on Tucson's north side Tuesday morning. One of the men was seriously injured.**

Early Tuesday morning, area residents reported a bobcat roaming the neighborhood. Some reported that it appeared to be sick or injured.

Around 10:30 a.m., the 25 lb. bobcat approached two golfers, then attacked them.

The golfers were able to stop the attack by hitting the bobcat with their golf clubs. The bobcat later died.

One of the golfers suffered serious puncture wounds and lacerations to his legs. He was transported to Tucson Medical Center by ambulance.

Arizona Game and Fish will be testing the bobcat to determine whether or not it had rabies.
