## Dog attacks child

By CP

EDMONTON -- A young Edmonton boy is critical, but stable condition following surgery after being attacked by a golden retriever in his home.

Four-year-old Chad Half's older brother says the dog bit Chad in the neck after the boy jumped on him.

Emergency Medical Services Supt. Craig O'Callaghan says the child was taken to hospital in serious condition with wounds to the neck.

The 16-year-old brother, who didn't want to be named, says the dog had never attacked anyone before.
