Family Dog Attacks Lincolnton Boy

POSTED: 11:34 am EDT April 2, 2007

LINCOLNTON, N.C. -- A 5-year-old boy in Lincoln County is missing part of his ear after his family's dog attacked him.

Christofer Gale was playing with the dog's water dish at his home in Lincolnton on Sunday when the dog attacked.

Doctors could not reattach that part of the boy's ear.

A family member shot and killed the German shepherd-Labrador mix. That dog's now being tested for rabies.
