Police said the dog was being walked along the footpath in Tuggerah Place at Woodcraft at about 7.40pm when the attack occurred.

The young boy was riding a scooter with friends when the dog broke free from its leash and chased him.

The dog bit him on his lower left leg, leaving deep cuts.

The boy was taken to the Westmead Children's Hospital for his injuries, which are not considered life threatening.

The dog's owners surrendered the dog to police and it was taken to the local pound.

Blacktown police are still investigating the incident.
