## Dog bite sends 15-year-old girl to hospital

*The Reporter Staff*

A 15-year-old Eden girl was treated at St. Agnes Hospital Nov. 20 after a dog bit her face and hand.

The girl told a Fond du Lac County Sheriff's Department deputy that a friend's black Lab/German shepherd mix — that was previously aggressive but never drew blood — bit and created a large puncture on the bridge of her nose, according to a Sheriff's Department report. The dog then bit her on the hand.

The dog was up to date on its rabies vaccination. The owner was given the option of quarantining the dog at home, according to the report.

The mother of the girl said a plastic surgeon was contacted because of the severity of the bite, according to the report.
