A Lincoln woman recovering from bites and bruises after a horrific dog attack Tuesday evening. Police say a two year old Mastiff suddenly attacked one of its owners, a 24 year old woman. Neighbours saw the dog bite and throw the woman around - she managed to break free and run into a neighbours house.

The dog jumped and clawed at the door - with two people keeping the animal at bay with shovels until officers with the Lincoln county humane society arrived.

The woman was taken to St. Catharines General with non life threatening injuries.

The dog was euthanized with permission from the owners although they say the dog showed no signs of aggression prior to the attack.
