## **Bull dog impounded after attack**

The Associated Press

A father and daughter were reportedly injured and the family's Jack Russell terrier was killed when a neighbor's bull dog attacked near their Naples home.

Collier County Domestic Animal Services impounded the bull dog, owned by Dionicio Sanchez, after it reportedly mauled the small dog to death Monday. Jenna and Earl Platt say the bull dog also bit them.

The bulldog will be quarantined for 10 days, following state guidelines for the investigation and rabies control.

Animal Services says another incident involving the bull dog was reported in May. If the dog is determined to be dangerous, it could be euthanized.
