Dog Bites Boy In SW Miami-Dade

SOUTHWEST MIAMI-DADE (CBS4) — A 10-year-old boy was transported to Miami Children's Hospital after being attacked by a dog Thursday night in Southwest Miami-Dade.

Neighbors say the boy approached the Husky mix while it was chained up next to its owner on his property at 20635 SW 120 Court, and that's when it bit him in the arm and the side of his body.

The boy was breathing and conscious when he was transported and was last listed in good condition at the hospital.

Animal services is letting the owner keep the dog while they investigate.
